

JOHNE. KOPPIN, CAE**Page Two****PROFESSIONAL EXPERIENCE** *(continued)***Chief Deputy Director Indiana Professional Licensing Agency 1983 - 1984**

Director in charge of overall administration of 40-member agency staff with 6 direct professional department head reports. Responsible for policy development, media and public relations, legislation, personnel and budget planning. Directly involved in the certification, regulation and continuing education of Real Estate Brokers and Appraisers, Engineers, Accountants, Architects and 8 other professions.

Accomplishments:

- Successfully realigned and consolidated 12 independent state licensing board staffs into a single agency staff of 40.
- Cut the cost of state licensing by \$ ½ million annually over previous board structure by cutting staff, managing the same functions with fewer resources.

Press Secretary to Secretary of State Indiana Secretary of State's Office 1980 - 1983

Responsible for designing and implementing statewide media campaigns to publicize initiatives and appearances of the Secretary of State. Represented the Secretary of State before the Indiana Legislature on subjects including the Indiana Lobby Registration Law, Elections Law and Corporation Law.

Accomplishments:

- Wrote news releases, handled media inquiries, new conferences, fundraising and issue coordination in the successful reelection of Ed Simcox.
- Passed Indiana's first Lobbyist Registration Statute under the Secretary of State containing the legally binding procedures for this regulated profession.

Court Administrator Marion Superior Court 1979 - 1980

Initiated this new position in state trial court designed to make court procedures more efficient through case management and process control.

Accomplishments:

- Reduced delays in court time from two years for a full day trial to six months leading to better use of staff time.
- Settled more cases more quickly than any other Superior court.
- The model I instituted is now used as the standard throughout Indiana's trial court system.

Committee Staff Ways and Means Committee, Indiana House of Representatives 1977 - 1979

Staff to this primary financial committee for the House of Representatives handling work on the \$7 billion state budget and tax legislation. Also developed press materials and provided interviews to the media on important fiscal issues.

Accomplishments:

- Chosen to serve on special work group assessing the relationship of land use and the application of property taxes funded by the Holcomb Institute at Butler University.

PROFESSIONAL EDUCATION

American Society of Association Executives	1993	Certified Association Executive (CAE)
J.S. Chamber of Commerce Institutes in Organization Management, Notre Dame University	1990	Professional Management Certificate (6yrs.)
Indiana University - Graduate School	1984	Earned MPA - Finance
Heaton College (Illinois)	1975	Earned BA in Government and English, Minor in Economics

ORGANIZATIONS, HONORS AND PUBLISHED WORKS

- Selected member Who's Who in Technology by *Indianapolis Business Journal* - October 2002.
- Former Chairman, National Council of State Telecommunications Association Executives.
- Board Member and Assistant Treasurer, Indiana Legal Foundation.
- Former Board Member, Governmental Affairs Society of Indiana.
- Member, American and Indiana Societies of Association Executives.
- Member, Indiana University-Purdue University Center for Economic Education Advisory Council
- Board Chairman of local church.
- Wrote and narrated 1997 ITA Centennial Anniversary Video, "A Century of Service."
- "Conversation with the Chairman," published interview with Indiana Utility Regulatory Commission Chairman, Leslie Duvall, ITA Bulletin, Spring 1987.
- "The Homestead Credit: Indiana's Response to the Reassessment Problem," Indiana Business Journal, September - October 1979.

Appendix B
Indiana Health Network
Job Descriptions

Position: **Project Director**

Time: **Minimum 40 Hours Per Week (1 FTE)**

Supervisor: **Indiana Health Network Advisory Board**
 Indiana Rural Health Association, Executive Director

Required Knowledge, Skills, and Abilities:

- Knowledge and experience regarding rural provider needs
- Knowledge and experience regarding network planning and strategic plan development
- Knowledge regarding the health care environment and telehealth applications
- Ability to work with and supervise multi-disciplinary teams
- Ability to advocate for and with network members
- Ability to organize multiple levels within a project
- Excellent problem solving and communication skills
- Excellent creative and critical thinking skills
- Ability to operationalize a new program or initiative

Essential Duties & Responsibilities:

- Responsible for insuring that the standards of the FCC are met regarding the project
- Responsible for maintaining communications with and reporting to the FCC
- Responsible for the oversight and administration of network planning and development activities (i.e. submitting RFPs to the FCC, facilitating vendor selection in response to RFPs, etc.)
- Responsible for ensuring that appropriate network partner organizations and selected vendors perform their functions as stated in the workplan and RFPs
- Responsible for coordinating advisory board and committee meetings
- Participation in Indiana Health Network committees as needed
- Responsible for addressing network development concerns and obstacles
- Monitor performance indicators related to goals and objectives of the network
- Collect and analyze data related to project effectiveness as needed for project evaluation
- Work with the network co-applicants, partner organizations, members, and consultants as appropriate to further develop sustainability strategies
- Supervise the Project Assistant to insure successful implementation of the project
- Collaborate with network co-applicants to coordinate the provision of technical assistance and training to participating health care providers/network members regarding successful implementation of telehealth applications
- Travel to network member organizations throughout the State of Indiana as needed
- Travel to national meetings as deemed appropriate and recommended by the FCC

Education and Experience:

- Minimum of 5 years of experience in network development and implementation
- Minimum of a Master's Degree from an accredited university

Indiana Health Network
Job Description

Position: Project Assistant

Time: Minimum 40 Hours Per Week (1 FTE)

Supervisor: Indiana Health Network Project Director

Required Knowledge, Skills, and Abilities:

- Knowledge and experience regarding rural provider needs
- Knowledge regarding the health care environment and telehealth applications
- Ability to work with multi-disciplinary teams
- Ability to participate in advisory board and/or committee meetings as deemed appropriate
 - Ability to act in the absence of the Project Director
- Excellent problem solving and communication skills
 - Ability to assist the Project Director with activities required to implement network planning and development

Essential Duties & Responsibilities:

- Responsible to assist the Project Director with network planning activities
- Responsible to synthesize and compile information from advisory board and committee meetings
- Participation in Indiana Health Network committees as needed
- Assist the Project Director and outside consultants collect data related to project effectiveness
- Work with the network co-applicants, partner organizations, members, and consultants as appropriate
- Travel to network member organizations throughout the State of Indiana as needed to provide technical support to insure successful implementation of telehealth applications

Education and Experience:

- Minimum of 3 years of experience in network development and implementation
- Minimum of a Bachelor's Degree from an accredited university

Appendix D

Indiana Health Network Applicant – Partner Organizations Memorandum of Agreement

For the purposes of applying for funding for the Indiana Health Network via the Federal Communications Commissions (FCC) Rural Health Care Pilot Program, the lead applicant is the Indiana Rural Health Association (IRHA) in partnership with the following co-applicants: Clarian Health Partners, St. Vincent Healthcare System, Bloomington Hospital/Bloomington E-Health Collaborative, Union Hospital's Richard G. Lugar Center for Rural Health, and the Indiana Telecommunication Association. This agreement is entered into between all the previously stated organizations (hereinafter referred to as Partners) as listed in the Indiana Health Network's grant application for funding through the FCC's Rural Health Care Pilot Program Grant.

The **goal of the network** is to improve the health and well-being of Indiana residents, particularly those in rural areas, through the utilization of a dedicated broadband health network to deliver telehealth applications including but not limited to telemedicine, health information exchange, distance education and training, public health surveillance, emergency preparedness, and trauma system development.

The **purpose of the network** is to construct a statewide broadband network, connect health care providers in the state, improve access to quality medical services in remote areas, and provide increased education and training opportunities to health care providers by connecting to Internet2. The activities of the network will improve the quality and safety of care provided by the network members, and will ultimately improve the health outcomes/status of Indiana residents and particularly those in rural areas. In order to accomplish the purpose of the network the partners will:

1. Implement the management structure necessary to support the successful development and implementation of the Indiana Health Network.
2. Construct a dedicated broadband network that will support the Indiana Health Network
3. Increase broadband access to and connectivity among Indiana's health care providers
4. Connect the Indiana Health Network to Internet2
5. Increase the utilization of telehealth applications

The responsibilities and contributions of the network Partners are as follows:

Indiana Rural Health Association:

1. Coordinate and facilitate constant communication among the Partners, health care providers/network members, and statewide partner organizations
2. Convene meetings of the Indiana Health Network advisory board and committees
3. Commitment of time from staff necessary to implement network activities
4. Hiring of staff as needed to insure successful implementation of network activities
5. Implementation of strategies identified to insure sustainability of the network
6. Oversight of network activities that are completed by other organizations including private providers that are awarded bids for network design studies, construction of necessary fiber connections, management of the network, provision of technical assistance to participating health care providers/network members, etc.

7. Insure compliance with FCC standards and achievement of the program goals and objectives as designed in the grant application
8. Collaborate with outside organizations as appropriate to implement evaluation activities
9. Develop a process to coordinate and submit reports as required by the FCC

St. Vincent Healthcare System, Clarian Health Partners, Union Hospital's Richard G. Lugar Center for Rural Health, Bloomington Hospital/Bloomington E-Health Collaborative:

1. Provide assistance and support to the lead applicant as needed to insure successful implementation of the activities of the Indiana Health Network
2. Participation in the Indiana's Health Network advisory board and committees as appropriate
3. Provide technical assistance and expertise necessary to educate and train participating health care providers/network members regarding successful implementation of telehealth applications, as appropriate, that are made possible through participation in the Indiana Health Network

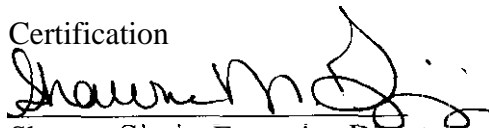

Indiana Telecommunications Association:

1. Provide assistance and support to the lead applicant as needed to insure successful implementation of the activities of the Indiana Health Network
2. Participation in the Indiana's Health Network advisory board and committees as appropriate
3. Provide technical assistance and expertise necessary to guide the development of the Indiana Health Network.

The Partners acknowledge and affirm the following:

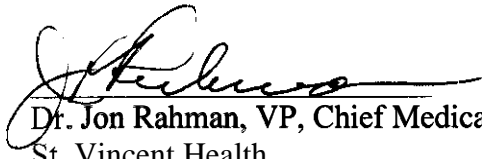

1. The Indiana Rural Health Association is the applicant of record for this project.
2. The Partners have had sufficient input regarding the development of the goals, objectives, and activities of the Indiana Health Network grant proposal.
3. The Partners commit to completing program implementation tasks as described in the completed application.
4. The Partners will actively participate in program performance activities (evaluation).
5. Each of the network partners will share an equal vote regarding project decisions, which will be guided by the Indiana Health Network's Project Director. If a circumstance should arise when consensus among the partners can not be reached, the Executive Director of the Indiana Rural Health Association will have the authority as the grantee to make decisions regarding the grant project that they feel will best enable the network to reach the goals and objectives of the project.

* List includes only health care providers that act as Hub site for telehealth networks, and does not include recipient (spoke) sites

** Store & Forward applications may include the transfer of clinical files such as EEG's or Echo's and does not include general tele-radiology

*** Only live 2-way video consultations are included under Tele-Consultations

Appendix J

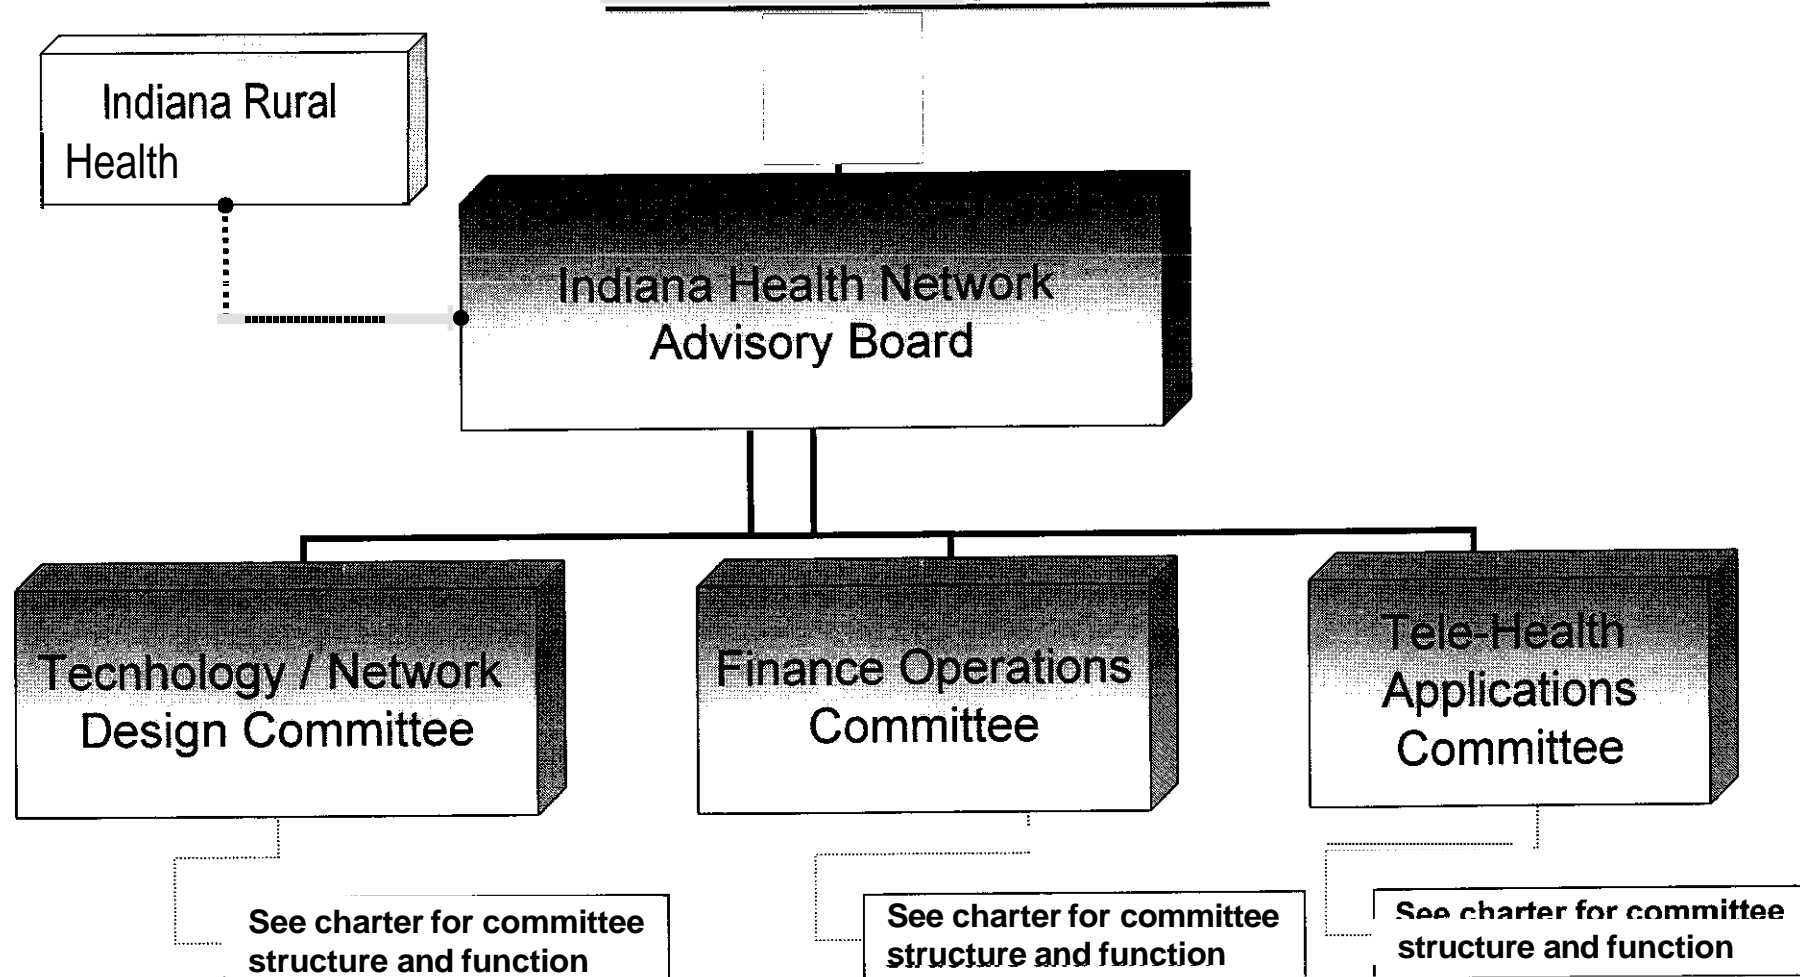

Indiana Health Network (InHN) Organizational Structure

Appendix K

Advisory Committee Structure

Indiana Health Network

Appendix L Committee Charters

Advisory Board Charter

Mission Statement of Indiana Health Network: To improve the health and well-being of Indiana residents, particularly those in rural areas, through the utilization of a dedicated broadband health network to deliver tele-health applications including but not limited to telemedicine, health information exchange, distance education and training, public health surveillance, emergency preparedness, and trauma system development.

Purpose of the FCC Rural Health Care Pilot Program is:

1. To provide funding to support the construction of state or regional broadband networks
2. To provide funding to support the cost of connecting the state or regional networks to Internet2
3. To construct a dedicated broadband network that connects health care providers in a state or region
4. To improve access to quality medical services in remote areas

Core Issues of the Indiana Health Network Advisory Board:

- Oversee and provide guidance and input into the hiring of the IRHA Project Director for implementation of the Indiana Health Network upon award of FCC grant
- Receive monthly project reports from the Project Director. Monitor and review reports from the Technology, Finance, and Telehealth Applications committees for this project and identify key unresolved issues and critical success factors
- Assist in the provision of communications to key stakeholders
- Facilitate and encourage key member participation, including Indiana Rural Health and Indiana Hospital Association membership participation
- Review project deliverables, budgets, and ensure the proper functioning of the focus committees
- Monitor development of the network over the duration of the grant, including the adoption of telemedicine applications by rural providers.
- Interface with the Indiana Health and Hospital Association – Rural Health Council for input and feedback on project deliverables
- Provide regular reports to the Indiana Health Network Advisory Board on critical success factors for this committee.

Membership:

Executive Sponsor (s) / Sponsoring Group:
Facilitator:
Group Leader:

Indiana Rural Health Association
To be determined
IRHA Project Coordinator

Potential Key Stakeholders and Organizational Partners: list includes, but not limited to the following:

- Indiana Telecommunications Assoc.
- Clarian Telemedicine
- Bloomington E-Health Collaborative
- Indiana Rural Health Association
- Indiana Health & Hospital Association
- St. Vincent Health
- Union Hospital's Richard G. Lugar Center for Rural Health
- State of Indiana

Board Member Roles & Oblliaations:

- Attendance: Committee attendance and participation is always voluntary. Attendees that have committed to a particular outcome should follow-through with their deliverables as agreed for the benefit of the larger group.
- Assessment & evaluation: Committee meetings will be evaluated by the attendees at each meeting to provide feedback on meeting structure, function, and discussion. Appropriate meeting management of each committee meeting will be an expectation.

Strateaic Implications:

Network design issues are important for the State of Indiana and a host of key stakeholders that will have access to using the network's functionality. Insuring participation by all interested parties will be a key area to monitor for this project.

Scope: to be determined when the group is convened.

Key Interfaces: State Government, Indiana Utility Commission, Healthcare industry, Telecommunications industry, private business, USDA, Indiana Rural Health Association, Indiana Department of Health, Indiana Office of Rural Affairs, or other advocacy groups that identify an interest in the project goals. Technology / Network Design Committee, Telehealth Applications Committee, Financial Operations Committee

Deliverables & Milestones: to be determined when the group is convened.

Benefits: to be determined when the group is convened.

Critical Success Factors: to be determined when the group is convened.

Key Review Dates: to be determined when the group is convened.

Financial Operations Committee Charter

Mission Statement of Indiana Health Network: To improve the health and well-being of Indiana residents, particularly those in rural areas, through the utilization of a dedicated broadband health network to deliver tele-health applications including but not limited to telemedicine, health information exchange, distance education and training, public health surveillance, emergency preparedness, and trauma system development.

Purpose of the FCC Rural Health Care Pilot Program is:

5. To provide funding to support the construction of state or regional broadband networks
6. To provide funding to support the cost of connecting the state or regional networks to Internet2
7. To construct a dedicated broadband network that connects health care providers in a state or region
8. To improve access to quality medical services in remote areas

Core Issues of Financial Operations Committee:

- Interface with IRHA executive committee and IRHA Treasurer on program budget, budget variances, and financial operations of the project
- Prepare as needed, and manage project management budget for IRHA. Ensure that appropriate project management dollars are being allocated to IRHA by third party to manage the project's costs
- Work with third parties, as needed, to secure alternative revenues to fund project
- Provide financial communications to various key stakeholders as needed
- Oversee and receive updates from the IRHA Project Director on FCC related finance communications; receive updates from ITA membership on FCC related finance issues and unresolved problems
- Communicate and receive reporting from Hall Render Telecommunications attorneys on success of expanded Universal Services Administration Corp. usage in participating sites to build sustainability
- Review program /project evaluation criteria to include financial indicators, sustainability information
- Log and inventory any financial related health provider issues that create a barrier for participation in the program
- Provide regular reports to the Indiana Health Network Advisory Board on critical success factors for this committee.
